

Product Information Sheet

Freeman Little Dandy Net

Features of the Little Dandy Net

This compact and lightweight net easily fits into tight spaces such as car engines and wheel wells. The locking cord safely contains and allows for easy releases, the Little Dandy is ideal for animals under 10lbs.

- Made from rust-resistant aluminum and stainless steel parts;
- Hoop opening is approximately 10" x 13" - Depth 26"
- 5" handle with a rubber foam grip.

Tips on how to use your Freeman Little Dandy Net

- The Little Dandy Net is good for the use on smaller animals up to 25lbs (cat sized).
- To confine an animal within the netting hold both cords and push the cordlock device tight against the netting. To release the cordlock with one hand pull back on the inner white wheel of the lock while pulling back on the locking device.
- Comes with a handy zipper at the bottom of the net bag which allows for easy releases/transfer or inspection of the animal.
- Ensure that the zipper is closed before using the net again.

Care Instructions

Do not use bleach on your net, this will damage the net and mechanisms. You can disinfect the net by spraying it with any non-bleach cleaning solution. Should netting become stiff over time you can dip it into a bucket of fabric softener. Always store your net away from direct sunlight.

Tips/Safety Precautions

- Never leave an animal unattended in the net
- Make sure your zipper is closed before use
