

# Dual Release Catch Pole (Patent Pending)

ACES Dual Release Catch Pole (patent pending) can be used on a wide variety of animals both domestic and wild. It has a dual release mechanism that allows for either an instant release or a quick release, dependent upon the situation. ACES Dual Release Catch Pole features improved non-slip grips, automatic locking mechanism, spring loaded large noose, heavy duty lightweight anodized aluminum shaft, protective bite guard, a thick vinyl coated noose and the easy to use slide control for instant release.
